Inspection Report

Stump Hill Farm
6633 Klick Street
Massillon, OH 44646

Customer ID: **2217**
Certificate: **31-C-0050**
Site: 001
STUMP HILL FARM

Type: ROUTINE INSPECTION
Date: Apr-29-2016

3.55
WATERING.

*** One water bowl for an adult rabbit was found with insect larvae swimming in it. The licensee removed this water bowl immediately once found by inspectors and asked a facility employee to clean the water bowl. Dirty water receptacles are a potential disease risk for the animals. Correct this by ensuring all water receptacles are maintained clean and sanitary at all times.

Corrected at time of inspection

3.127 (d) REPEAT
FACILITIES, OUTDOOR.

*** Several large trees have been removed from inside the perimeter fence. There are still other trees in the upper storage area near the dumpster than are near the perimeter fence in that area. Trees near the perimeter fence may act as a climbing source for animals should they get out of their primary enclosure. Correct by completing removal or altering of trees in a manner to ensure the perimeter fence can adequately function as a secondary containment system.

THIS IS A REPEAT NON-COMPLIANT ITEM THAT REMAINS UNCORRECTED.

3.130
WATERING.

*** The water bucket for the adult coatimundi was dirty and contained brownish water. The licensee asked for a facility employee to clean this water bucket at the time it was mentioned by inspectors. Dirty water and water receptacles are a potential disease hazard for the animals. Correct this by ensuring all water and receptacles are maintained in a clean and sanitary condition.

Corrected at time of inspection
